Finca Agua Tibia is a 150 year old farm located near Guatemala City in the Frajanes region. Frajanes was always compared to the high price coffees from the region of Antigua in the past when it was so called Antigua Type. After all, Frajanes is about the same distance from the capital Guatemala City as Antigua, but in the opposite direction, Antigua is at the west and Frajanes at the east side of the City. Frajanes coffees have their own unique character, and some of that potential is just starting to be realized. Needless to say that Agua Tibia fits perfectly on the Frajanes description given by Anacafe.
